## A summary of the Growing Up in North Yorkshire survey 2020

These results are the compilation of data collected from children and young people in the vast majority of schools in North Yorkshire during Autumn 2020. This survey was commissioned by the North Yorkshire County Council to collect reliable information about young people's learning and well-being. This is the seventh such survey completed in North Yorkshire since 2006.

Despite the unprecedented challenges that schools have faced this year due to the Covid-19 pandemic, over 17,000 children and young people have participated and shared their perceptions and experiences through our bi-annual 'Growing up in North Yorkshire' survey which started in 2006.

The findings within the survey provide all professionals who work with children and young people key insights into our children and young people's perceptions and experiences and create an opportunity for us to refine and enhance the quality of provision within the county so that it addresses emerging needs and trends.

### Collecting the figures

Teachers were briefed on how to collect the most reliable data and then pupils anonymously completed the questionnaire. The sample sizes are shown in the table below.

Completed questionnaires were then returned to SHEU in Exeter for processing. Some of the schools conducted the survey online. Where figures are also given in a chart, they are shown in bold.

All schools who took part have received their own individual school report.

### Comparisons

Comparisons have been made between the figures from this district and from North Yorkshire as a whole. The North Yorkshire findings are given in brackets following the district figures, and a table summarising the most important significant findings is shown on page 14.

### Trends

This study follows similar studies in 2018, 2014, 2012, 2010, 2008 and 2006. Where changes can be seen in the figures from the district in 2018, these are noted on page 13.

This report should be read alongside the summary report for the whole North Yorkshire data set, which includes a number of important additional pieces of analysis. The **Equalities Monitoring** analysis is appended to this report.

This report is based on the responses of over 17,000 pupils

### Our County priorities:

- ❑ Developing resilience and emotional wellbeing with a focus on responding to emerging needs following the pandemic
- ❑ An inclusive and positive ethos and culture at school to ensure all pupils feel valued, safe and have a sense of belonging
- ❑ Responding to the increasing online safety risks for pupils
- ❑ Supporting and encouraging a healthy lifestyle
- ❑ Effective implementation and delivery in schools of the statutory relationships, sex and health education curriculum
- ❑ Supporting identified **groups of young people** who continue to have more negative outcomes against a wide range of indicators. These include in particular: Young Carers, Pupils receiving Free School Meals, Lesbian, Gay, Bisexual pupils (LGB), Transgender pupils, Pupils with Special Educational Needs and /or Disabilities, Pupils from single-parent families
- ❑ Reduce bullying and prejudice based incidents in schools and the wider community through developing effective inclusive practice
